SCHEDULE

AGREEMENT ESTABLISHING THE CARICOM REGIONAL ORGANIZATION FOR STANDARDS AND QUALITY (CROSQ)

The States Parties,

Recognising that liberalisation and globalisation in the world economy have intensified international competitiveness in the production of goods and services;

Conscious that the Caribbean Community is extremely vulnerable to penetration by products of sub-standard quality and specifications which could have serious negative implications for consumer welfare and the integrity of the regional environment;

Aware that the establishment of the CARICOM Single Market and Economy constitutes the measured institutional response to current developments present in the international economy as a means of safeguarding and promoting fundamental values of the peoples of the Caribbean Community;

Acknowledging that the development and application of harmonised regional standards, technical regulations, conformity assessment procedures and metrology are essential for the efficient operation of the CARICOM Single Market and Economy and, in particular, the international competitiveness of goods and services produced or provided in the Caribbean Community;

Conscious also that the formulation and application of internationally accepted standards, technical regulations, conformity assessment procedures and metrology on a regional basis would be cost-effective and enhance the international competitiveness of goods and services produced or provided in the CARICOM Single Market and Economy;

Convinced that the development of regional standards, technical regulations, conformity assessment procedures and metrology would

facilitate the operations and improve the delivery of national standards bodies of Member States of the Caribbean Community;

Noting that the formal establishment of an inter-governmental regional standardising organization would entitle it to recognition by competent standardising international organizations resulting in important benefits to the Member States of the Caribbean Community in terms of technical assistance.
